ADELIE CONSTRUCTION

# Preconstruction Planning Workbook

Confirm scope, access, communication and household readiness before work begins.

HOMEOWNER PLANNING TOOL

Project name: _____

Property address: _____

Date started: _____ Target start: _____

Use this workbook to organize questions and decisions before they become expensive field changes. It is a planning aid, not project-specific legal, design, engineering or code advice.

## Plan and Verify

**Approved plans and written scope**

**Permit and inspection responsibilities**

**Long-lead materials and delivery dates**

## Coordinate the Work

**Site access, parking and staging**

**Dust and floor protection**

**Utility shutdown expectations**

## Document and Close Out

**Daily contact and decision authority**

**Neighbor, pet and child considerations**

**Preconstruction photos and records**

## Questions for ADELIE

Use this space for decisions that require a site visit, drawings, trade input or a written proposal.
