

Selection Deadlines Guide

Make product decisions in the order construction needs them.

HOMEOWNER RESOURCE

Use this resource to organize decisions and prepare for productive conversations with your contractor, designer and local building department.

Why Deadlines Matter

Selections affect drawings, rough-in locations, framing dimensions, ordering and inspection readiness. A late faucet can delay countertop drilling; a late appliance decision can change cabinetry and electrical requirements.

Decide Early

- Appliances and equipment dimensions
- Cabinet layout and finish
- Plumbing fixture rough-in requirements
- Lighting layout and fixture types
- Tile sizes and patterns
- Flooring thickness and transitions

Confirm Before Ordering

- Exact model and finish
- Required accessories and trim
- Lead time and delivery location
- Return and damage policy
- Installer requirements
- Compatibility with drawings and surrounding materials

Project Notes

Educational resource only. Costs, schedules, permit requirements and construction methods vary by property, scope and jurisdiction. Confirm project-specific requirements with qualified professionals and the applicable authority.
