

Post-Remodel Maintenance Guide

Protect new finishes and preserve records after construction.

HOMEOWNER RESOURCE

Use this resource to organize decisions and prepare for productive conversations with your contractor, designer and local building department.

First 30 Days

- Review care instructions before using cleaners
- Monitor new plumbing connections for signs of leaks
- Avoid harsh chemicals on stone, grout, metal and cabinet finishes
- Keep HVAC filters clean after construction dust
- Store manuals, paint formulas and warranties together

Routine Care

Surface	Routine care	Avoid
Quartz	Mild soap and soft cloth	Abrasives and extreme direct heat
Natural stone	pH-neutral cleaner; seal as specified	Acidic cleaners
Tile / grout	Dry surfaces and clean regularly	Bleach overuse and hard scrubbing
Wood cabinets	Soft damp cloth; dry promptly	Standing water and harsh solvents
LVP / wood flooring	Manufacturer-approved cleaner	Steam unless approved

Keep These Records

- Contract and approved changes
- Permit and inspection records
- Product manuals and warranties
- Paint and finish schedules
- Final photos and maintenance notes

Project Notes

Educational resource only. Costs, schedules, permit requirements and construction methods vary by property, scope and jurisdiction. Confirm project-specific requirements with qualified professionals and the applicable authority.
