ADELIE CONSTRUCTION

Permit Preparation Checklist

Gather project information and confirm responsibilities before permit submittal.

HOMEOWNER PLANNING TOOL

Project name: _____

Property address: _____

Date started: _____ Target start: _____

Use this workbook to organize questions and decisions before they become expensive field changes. It is a planning aid, not project-specific legal, design, engineering or code advice.

Plan and Verify

Property address and parcel information

Existing and proposed plans

Structural or engineering documents

Coordinate the Work

Energy and product documentation

HOA or neighborhood requirements

Responsible permit applicant

Document and Close Out

Required agency clearances

Correction and resubmittal log

Inspection sequence and closeout

Questions for ADELIE

Use this space for decisions that require a site visit, drawings, trade input or a written proposal.
